DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, 5-13 and 18-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Anderson.

Anderson's Fig. 1 shows an arithmetic unit for adding a plurality of values (A and B) including an adder (Adder Bit 0- Adder Bit 15), a range detector that considers only some of the bits of the result (Limiter Control, 12, and bits NCARRY and CARRY), range limiting circuitry Limiter 0-15) and round circuitry (the truncation circuitry referenced in col. 1, lines 6-9 and col. 2, lines 38-450).

Claim Rejections - 35 USC § 112

3. Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrases "said result" claim 1, lines 10 and 11; "the result" claim 1, lines 11 and 13; "said carry save adder stage" claim 4, lines 1-2 and "the bits", claim 6, line 2; lack clear antecedent basis. In claim 1 the round circuitry fails to be clearly related to the modifying

circuitry. To what disclosed structure does the round circuitry and the modifying circuitry correspond, respectively? Claim 5, line 1; the phrase "any of claims 1" and claim 16 are clearly indefinite. The last two lines of claim 7 are mis-descriptive. The functional language of the last two lines of claim 12 and claim 14 fails to be clearly related to the structure that performs the functions.

Allowable Subject Matter

4. Claims 2, 4 and 14-17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Drawings

5. Fig. 1 is required to be labeled "Prior Art".
